

Elena Soloveva

UX/UI Designer

Seven years in digital design. I design data platforms, websites and brand identities, and build my own AI products: from Figma to a working service.

What I do

User research, CJM, information architecture

Wireframes, hi-fi UI, prototypes

Usability testing and audits

Dashboards and complex data interfaces

Design systems and developer handoff

Websites and landing pages

Brand identity and visual systems

Prototypes and MVPs in code

Tools

Figma · Framer · Tilda · Notion · Photoshop · Illustrator

AI in my work

Claude, ChatGPT, Codex, Lovable, Figma Make: research synthesis, UX copy, prototypes and code

Industries

AgriTech, GovTech, E-commerce, PropTech, Fintech, HealthTech, IT & SaaS

Languages

Russian, English

Selected projects

SaveFlow

Own product · 2026

An AI library for screenshots, images and links. Designed and built it myself (Next.js, Supabase, iOS via Capacitor); in beta with first users.

Klaris

Concept · 2026

A pharma operations platform: dashboards, tasks, profiles and a vibe-coded interactive prototype.

Travel insurance

Client, NDA · 2024–25

Website redesign and a new four-step policy calculator, from quote to payment.

Profreza24

Client · 2026

Website redesign for a manufacturing company: catalogue, price list, calculator and design system.

KERN · NAMI FLOW · Agropromcifra

Brand identity · 2025–26

Visual identities, packaging and brand systems.
